New Developments in Ethics and the Law

In recent years, clinical practitioners have been “running scared” constantly hearing about lawsuits against health care providers. It is true that we are in an age of litigation, and many people do file suit, but that is not the same as a successful suit. This webinar will demonstrate the basic principles of the APA Ethics Code and how it interfaces with three major elements of risk management, to reduce dramatically the likelihood of any successful litigation.

Learning Objectives
At the end of this seminar, participants will be able to:
1. Name the parts of the APA Ethics Code most relevant to risk management
2. Identify three ways of translating these standards into concrete steps to prevent malpractice
3. Explain the concept of a standard of care in professional activities
4. Identify the three basic elements of risk management in psychological practice
5. Name three recent changes in the ethics code.

Seminar Schedule
Typically begins at 1PM and ends at 4:15 Eastern time. There is one 15 minute break. However, check the webinar schedule.

How To Register:
On-Line at tzkseminars.com
Register On-Line for only $59

Outline
Begin 1 PM ET
Changes in the APA Ethics Code
The Concept of Competence
Forensic Specialty Guidelines
Break 2:30-2:45 PM ET
Standard of Care
Further Issues
End 4:15 PM ET

Our seminars are available in two formats: The first is a live, interactive webinar. You can ask questions of our presenters, either by typing them or speaking into a microphone. If the webinar time is not convenient for you, you can purchase the Home Study version. It is a recorded version of the webinar. You will have to pass a test to earn CE’s for both the live webinar and the Home Study version.

Continuing Education Credit
To earn CE’s, you must attend the entire webinar. No partial credit is available. For both the webinar and the home study version, you will have to pass a post-test with 80% correct and complete a seminar evaluation to earn the certificate. You can take the test as many times as necessary to pass.

Learning Objectives
1. Name the parts of the APA Ethics Code most relevant to risk management
2. Identify three ways of translating these standards into concrete steps to prevent malpractice
3. Explain the concept of a standard of care in professional activities
4. Identify the three basic elements of risk management in psychological practice
5. Name three recent changes in the ethics code.
