

Outline

BEGIN 12 PM ET

Current DSM-5 diagnostic requirements
Models for understanding and "seeing" ADHD symptoms
Prevalence and persistence of ADHD in adulthood
Common impairments observed in cases of ADHD

BREAK 1:30 PM ET (15 minutes)

Comprehensive diagnostic assessment
Screening
Clinical/Developmental Interview
Developmental history
Family History

Educational History

College

Occupational History

Social and Interpersonal History

Structured Diagnostic Interview/Differential Diagnoses

Review of Clinical Inventories

Feedback Session

Review of useful inventories, questionnaires and other diagnostic tools

Testing (What it can and cannot do)

What if a patient does not have ADHD?

Malingering CONCLUSION 3:15 PM ET

Our seminars are available in two formats. The first is a live, interactive webinar. You can ask questions of our presenters, either by typing them or speaking into a microphone. If the webinar time is not convenient for you, you can purchase the Home Study version. It is a recorded version of the webinar. You will have to pass a test to earn CE's for both the live webinar and the Home Study version.

Continuing Education Credit

To earn CE's, you must attend the entire webinar. No partial credit is available. For both the webinar and the home study version, you will have to pass a post-test with 80% correct and complete a seminar evaluation to earn the certificate. You can take the test up to three times. Participants will earn 3 CE's for attending once they have completed these requirements.

PSYCHOLOGISTS: tzkseminars is approved by the American Psychological Association to sponsor continuing education for psychologists. tzkseminars maintains responsibility for this program and its content.

SOCIAL WORKERS: tzkseminars (Provider # 1242) is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. tzkseminars maintains responsibility for this course. ACE provider approval period: 3/28/2019 to 3/28/2022. Social workers completing this course receive 3 general continuing education credits.

COUNSELORS: tzkseminars has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 6621. Programs that do not qualify for NBCC credit are clearly identified. tzkseminars is solely responsible for all aspects of the programs.

tzkseminars is recognized by the New York State Education Department's State Board for Social Work as an approved provider of continuing education for licensed social workers #0024.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed creative arts therapists #0001.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed marriage and family therapists #0003.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed mental health counselors #0004.

tzkseminars is recognized by the New York State Education Department's State Board for Mental Health Practitioners as an approved provider of continuing education for licensed psychoanalysts #0002.

tzkseminars is recognized by the New York State Education Department's State Board for Psychologists as an approved provider of continuing education for licensed psychologists #PSY-003.

tzkseminars is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

The Presenter

Dr. J. Russell ("Russ") Ramsay is co-founder and co-director of the University of Pennsylvania's Adult ADHD Treatment and Research Program and an associate professor of clinical psychology in the department of psychiatry in the Perelman School of Medicine at the University of Pennsylvania. Dr. Ramsay received his PhD in clinical psychology from Palo Alto University. He completed an APA-approved pre-doctoral internship at CPC Behavioral Healthcare in Red Bank, New Jersey, and a postdoctoral fellowship at the Center for Cognitive Therapy at the University of Pennsylvania.

Dr. Ramsay has authored numerous peer-reviewed professional and scientific articles, research abstracts, as well as many book chapters. He is author of *Nonmedication Treatments for Adult ADHD* (2010); *Cognitive Behavioral Therapy for Adult ADHD* (with Dr. Anthony Rostain, 2015), which is in its second edition; and its companion patient guidebook, *The Adult ADHD Tool Kit* (also with Dr. Anthony Rostain, 2015). The *Adult ADHD Tool Kit* has been translated into Spanish (Kindle version), French-Canadian, and is in the process of being translated to Korean. It has been designated as a recommended self-help book by the Association for Behavioral and Cognitive Therapies. Dr. Ramsay was an invited contributor to the American Psychological Association's Psychotherapy Video Training Series with the video, *Adults with ADHD*. His most recent book is *Rethinking Adult ADHD: Helping Clients Turn Intentions into Action* (2020).

Dr. Ramsay is an inductee in the CHADD Hall of Fame and received the Szuba Award for Excellence in Clinical Teaching & Research from the University of Pennsylvania. He serves on the editorial board of the *Journal of Attention Disorders*. He has served terms on the Professional Advisory Boards (PAB) of the Attention Deficit Disorder Association (including serving as PAB co-chair), CHADD, and on the Board of the American Professional Society of ADHD and Related Disorders (APSARD). He is a regular blogger through the *Psychology Today* website.

"How do I know if this patient has ADHD or not?":

Diagnostic Assessment of ADHD in Adulthood

Increasing numbers of adults are seeking out assessment and treatment for ADHD. However, ADHD is considered to be one of the most misdiagnosed conditions, being prone to both over- and under-diagnosis. This presentation provides a model for a comprehensive diagnostic assessment of ADHD in adults that can be tailored and used by clinicians in practice to increase diagnostic accuracy. Issues related to DSM-5 diagnostic criteria for ADHD, presenting symptoms and problems characteristic of ADHD that are not included in the official criteria, the prevalence and persistence of ADHD into adulthood, testing for ADHD, the issue of malingering, as well as telling clients when their difficulties are not consistent with a diagnosis of ADHD will be discussed.

Target Audience

Psychologists
Therapists

Social Workers
Psychiatrists

Counselors
Nurses

Course Level: Intermediate

Learning Objectives

- At the end of this seminar, participants will be able to:
1. Cite the components required for a diagnosis of ADHD in adulthood as defined by DSM-5, including the recent modifications for adults and ongoing limitations.
 2. Summarize models that provide a wider view of symptoms of ADHD beyond those outlined in DSM-5 criteria in order to adequately assess for the presence of the ADHD symptoms drawing from contemporary etiologic models of ADHD.
 3. Cite at least one source of corroborative information that can be used to augment patient self-report.
 4. Identify at least one way in which testing can aid in the evaluation of ADHD and one way in which testing may hinder the identification of adult ADHD in adults.
 5. Name at least one clinical inventory that can be used as a part of an adult ADHD evaluation in clinical practice.
